PUBLIC HEARING NOTICE WASTEWATER TREATMENT PLANT FY16 STATE REVOLVING FUND (SRF) PROJECT

The Detroit Water and Sewerage Department (DWSD) announces a Public Hearing regarding its Project Plan for the proposed **Aeration System Improvements**. DWSD will be seeking low interest State Revolving Fund (SRF) loan assistance for FY16. The project is comprised of miscellaneous improvements that are mostly replacement of aging equipment. The improvements also include additional pumping redundancy that increases the reliability of the aeration system operation. This project is necessary to ensure that DWSD will consistently and reliably operate in compliance with the requirements set forth in its National Pollutant Discharge Elimination System (NPDES) permit. The proposed project will significantly enhance the reliability of the aeration system at the Wastewater Treatment Plant. The total cost of this project is currently estimated at \$22,500,000, which will be allocated to Detroit and suburban customers similar to other treatment plant capital improvements. The **Aeration System Improvements** are eligible for participation under the State of Michigan low interest State Revolving Fund (SRF) loan program.

The Public Hearing will present a description of the recommended project, its evolution and estimated costs, environmental impact, as well as the cost per household impact for customer communities. The purpose of the hearing is not only to inform, but to seek and gather input from people that will be affected. Comments and viewpoints from the public are requested.
